Crafting Effective Prompts

Key Elements of a Good Prompt

-  **Subject:** Main focus of your image
-  **Style/Aesthetic:** Artistic direction or visual feel
-  **Details:** Colors, lighting, composition, mood
-  **Technical aspects:** Camera angle, depth of field

Basic vs. Detailed Prompt

Basic:

"A cat sitting on a windowsill"

Detailed:

"An orange tabby cat sitting on a wooden windowsill, looking out at a rainy cityscape. Soft afternoon light, cozy atmosphere, photorealistic style with shallow depth of field."

Generate

Subject

A noun that functions as the main subject of the rendered image

Description

Descriptions answer questions about the noun and its surrounding scenery.

It answers questions such as what is the subject doing, where and when, what does the subject look like, what's happening around the subject, etc.

Style / Aesthetic

Stylistic or aesthetic parts of a text prompt dictate the composition in its entirety. These can be art styles, such as impressionist, cyberpunk, art deco.

Time periods, such as 80's or medieval. These elements also control the framing of the image, such as wide shot, ling shot, close up.

Understanding Aspect Ratios

Available Aspect Ratio Options

 ChatGPT offers **multiple aspect ratio options** for different use cases

 Select the ratio that best suits your intended purpose and platform

Square (1:1)

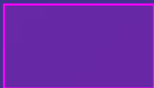

Perfect for social media profiles and balanced compositions

Portrait (4:5)

Ideal for mobile displays and vertical content

Landscape (16:9)

Best for presentations and wide screens

Widescreen (21:9)

Cinematic feel, panoramic scenes

Best Practices

Match the ratio to your intended platform or use case

Consider **composition**

Specify the ratio **early in your prompt**

Artistic Styles and Techniques

Specifying Artistic Styles

-  Include specific art style in your prompt for consistent results
-  Combine styles for unique aesthetics (e.g., " **cyberpunk** **watercolor** ")

 Photorealistic

 Watercolor

 Oil Painting

 Digital Art

 Anime/Manga

 Pixel Art

Using Reference Images

-  Upload reference images to guide style and composition
-  Ask ChatGPT to " **create an image in the style of this reference** "
-  Maintain consistent style across multiple images by referencing previous generations

Advanced Prompt Engineering

Detailed Prompt Structure

- 📁 **Organize by sections** for clarity and control
- 📐 **Control composition** with specific positioning
- 👁️ **Direct focus** to important elements

Advanced Prompt Template

Subject: [Main subject/character/scene]
Setting: [Location, time period, environment]
Action: [What is happening in the scene]
Style: [Artistic style, reference artist]
